

2018 Fumigation Training Tour

December 18-19, 2018 | Havre & Miles City

The MSU Extension Pesticide Education Program (MSU PEP) is offering two fumigant programs targeting pesticide applicators conducting rodent and structural fumigations. This program focuses on the use of aluminum phosphide fumigants. Each program will offer private and commercial pesticide education credits.

Dates & Locations:

12/18: Havre, MT

Northern Ag Research Center
3710 Assiniboine Road
Havre, MT 59501

12/19: Miles City, MT

USDA-ARS-PA Livestock &
Range Res. Lab (LARRL)
243 Fort Keogh Road
Miles City, MT 59301

Fee: \$30 at the door

Registration Required:

Please register by Dec. 12th as space is limited!

8:00 – 8:05 am	Welcome <i>Cecil Tharp, MSU PEP</i>
8:05 – 9:00 am	Fumigation Poisonings and Fumigant Safety <i>Cecil Tharp, MSU PEP</i> Cecil Tharp will present information on poisoning related specifically to fumigation, as well as how to safely use fumigants. This will include use and selection of PPE, re-entry intervals, handling, transportation, mixing and loading pesticides, and pesticide toxicity.
9:00 – 10:00 am	Rodent Management Using Fumigants <i>Stephen Vantassel, Montana Department of Agriculture</i> Stephen Vantassel will present on using Integrated Pest Management (IPM) to control rodents including pest and beneficial organism identification, life cycle, application timing, monitoring pest populations and economic thresholds.
10:00 – 10:20 am	Using FMP's for Rodent Fumigations <i>Stephen Vantassel, MDA</i> Stephen Vantassel will discuss using Fumigant Management Plans (FMP's) for rodent control and management.
10:20 – 10:35 am	Break & Refreshments
10:35 – 11:35 am	Conducting a Structural Fumigation <i>Cecil Tharp, MSU Pesticide Education Program</i> Cecil Tharp will discuss fumigating structures including background, mode of action, application, monitoring, conducting a fumigation, aeration, sealing and exposure period.
11:35 – 12:00 pm	Using FMP's for a Structural Fumigation <i>Amy Bowser, MSU Pesticide Education Technician</i> Amy Bowser will discuss using Fumigant Management Plans to control pests in a structure.
12:00 pm	Surveys and Adjourned
